WHAT MAKES HER POPULAR.

WHAT MAKES HER POPULAR.

The American girl is admired and liked at home and abroad because she is the happiest, usually the healthiest and friendliest of girls. She is fond of life and is alive to everything beautiful and good in existence. Mrs. Langtry has said that the American woman has little to learn from her English sisters.

Dr. Pierce, the specialist in women's diseases, of Buffalo, N. Y., advises simple exercises for women, preferably in the outdoor air. But many women are confined to the house and their household duties or their business confines them to poorly ventilated rooms.

warranted in offering to pay \$500 for any
case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they
cannot cure. All they ask is a fair and
reasonable trial of their means of cure. NIP IT IN THE BUD.

Students to Return.

It is probable that almost all the members of the junior class of the Virginia Polytechnic Institute, at Blacksburg, who left in a body because of the expulsion of Cadet Bolling Coulter, will return to the institute after the holidays. Some members of the class held a meeting at Blacksburg yesterday, in the course of which it was brought out that the boys had not understood the position of the faculty. The class had adopted a resolution to the effect that Coulter must be a the would have college. reinstated or they would leave college.

Patricide to Save Mother.

To save mother, brother and sister from the brutal attacks of a murderous husband and father John Marder, aged 17, sent two charges of buckshot into his father's body last night, killing him instantly. He cane home intoxicated and started to put into execution threats that he had previously made to kill the entire family. He was armed with a carving knife and pocket knife. The family fled from the house, and when the father sought the mother in the barn, where she was bidden with several children, John appeared at the door with a double-barreled shotgun and fired at his father's back, killing him instantly.
